

Zyad Abdulftah Ibrahim Ibrahim El Adl

Electronics & Communications Engineering Student

Mansoura, Dakahlia, Egypt | +201002290455 | zyadaibrahim2004@gmail.com | [LinkedIn Profile](#) | [My Portfolio](#)

PROFESSIONAL SUMMARY

Undergraduate Electronics & Communications Engineering student seeking an entry-level Network Engineer position. Solid foundation in Cisco networking fundamentals with hands-on practice in GNS3 lab environments. Skilled in routing & switching concepts, VLANs, trunking, OSPF, NAT, ACLs & network security features. Hands-on experienced in configuring IPsec Site-to-Site VPNs, GRE tunnels & implementing access security controls. Highly motivated, passionate about enterprise networking.

EDUCATION

Bachelor of Engineering - Electronics and Communications Engineering

Faculty of Engineering, Mansoura University

Expected Graduation: June 2027 | Currently in 4th Year | Cumulative Grade: Very Good

TECHNICAL SKILLS

Networking

- CCNA-Level Networking
- Routing: Static Routing, OSPF
- Switching: VLANs, Trunking, Inter-VLAN Routing, STP, Port Security, DHCP Snooping, DAI
- Security: ACLs (Standard & Extended), IPsec Site-to-Site VPN, GRE Tunnels
- Services: DHCP, SSH, Telnet, DNS, FTP, TFTP, Syslog, SNMP
- Protocols: CDP, LLDP
- TCP/IP, IPv4 Subnetting, Network Documentation, Troubleshooting, LAN/WAN

Telecommunications: Telecommunications, Wireless Communications

Electronics & Electrical: Electronics, Electrical Engineering, Digital Electronics, Digital Circuit Design, Electronic Circuits

Tools: GNS3, AutoCAD, Autodesk Revit, DIALux evo

Soft Skills: Problem Solving, Analytical Thinking, Troubleshooting, Communication, Teamwork, Time Management, Continuous Learning

PROJECTS

- Configured VLANs and trunking in a multi-switch topology to segment enterprise traffic.
- Implemented NAT and PAT to allow multiple internal hosts access to the Internet.
- Designed and tested ACLs to filter traffic and enhance network security.
- Configured port security and DHCP snooping to protect against unauthorized devices.
- Built a site-to-site IPsec VPN tunnel between two branch routers in GNS3.
- Deployed GRE tunnel for multi-site connectivity lab.
- Configured Syslog and SNMP monitoring for network devices in a lab setup.
- Implemented OSPF routing for multi-area lab topology.
- Configured static routes for branch connectivity in enterprise lab.

CERTIFICATIONS & TRAINING

- Cisco Certified Network Associate (CCNA - Training Completed)
- Mobile Communication Networks - National Telecommunication Institute (NTI), Digital Egypt Youth Program [Certificate](#)
- React Web Developer Track - Digital Egypt Pioneers Program (Apr-Oct 2024) [Certificate](#)
- Business English Track - Berlitz Egypt, Digital Egypt Pioneers Program (Apr-Oct 2024) [Certificate](#)

LANGUAGES

Arabic: Native | English: Good | German: A2

MILITARY STATUS

Military Service Deferred (During Study)
